

# My Visit to the SEE Science Center: A Social Story

I am going to SEE  
Science Center  
today! When I see  
the glass staircase, I  
will know I am there.

I can walk up the stairs or take the elevator to the 4<sup>th</sup> floor to get to the museum.

When I get to the museum, I will stop by the front desk to pay. The museum staff will say “hello” while I wait.

There is a gift shop next to where I came in.  
If I have money to spend, I will wait and shop  
when we are done visiting the science center.

The staff at SEE Science wear a blue SEE shirt.  
They will help me if I have a question or get lost.

I will explore the top floor (4<sup>th</sup>). There will be exhibits to touch and things to build. Some things will make noise.

I can play in the pretend kitchen and science lab.

I can learn about dinosaurs and dig for fossils.

T.  
**THE REX THEATRE**  
Puppet

There may be other visitors using exhibits. We can take turns.

I can also watch a demonstration by a SEE Staff Member.

I will know it is time for a demonstration when I hear an announcement

There are more exhibits downstairs.

To get down to the 3<sup>rd</sup> floor, I will walk down a large staircase. I can hold onto the railing.

Or I can ask to use the elevator.

I will see the LEGO<sup>®</sup> Millyard Exhibit. I can look at it, but I can't touch it. I can play with the loose LEGO<sup>®</sup> bricks at the table.

I can turn things, lift things and see how things move.

I can play with the bubbles. If my hands get wet, I can dry them with the paper towels nearby.

Near the submarine and the bubbles on the 3<sup>rd</sup> floor, there is a bathroom I can use.

I can have a  
great day at the  
SEE Science  
Center because  
Science is fun!
